Summer Camp '26

Join us for a decade by decade look back and toward the future!
Each day will be filled with friends, learning and fun!

Week

Time Travelers Unite

Step through the time travel portal into a summer of adventure! Campers will meet our time-traveling crew and their fellow travelers. We will explore the decades we'll visit, and gear up for hands-on games, creative projects, and imagination-fueled challenges that will take us from the past to the future. We will start with a "Time Capsule Icebreaker" where campers share a favorite thing from today that would wow someone in another decade. Then we will do an exciting decade trinket scavenger hunt.

Step back into the roaring 1920s, when jazz filled the air and flappers and zoot suits ruled the fashion of the day! Campers will celebrate America's favorite pastime, baseball, learn about the birth of Mickey Mouse, and make their own animations! They will also learn about the invention of mainstream radio and how that impacted the world we know today.

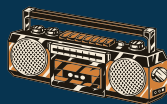

Week

Roaring Fun in the 1920s

Week

Past Beats, Present Hits and Future Sounds

From ragtime to rock, hip-hop to pop, music tells the story of every decade! Campers will experiment with rhythms, record their own songs, and invent new instruments to create sounds that might just inspire the next big hit.

Week

Peace, Love & Play

Week 4 celebrates a tie-dyed, peace-filled look back at the 1960s, from roller skating to music from the British Invasion. Campers will enjoy groovy games, creative art activities, and fun movement inspired by this colorful decade while learning about its music, fashion, and culture. Can you Dig it?

Week

Decades of Inventions

Week 5 of Summer Camp is all about inventions that make you say, "Wait, who thought of that?" We will explore everyday gadgets and wild ideas that changed the world. Campers will explore amazing inventions from all of the last century and create mini gadgets from recycled materials, then show them off in an Invention Expo.

Week

Totally Awesome 80s

The '80s were so much more than music videos and Pac-Man! In Week 6, campers will try their hand at breakdancing, challenge themselves with Rubik's Cubes, and "like, totally" have a blast through high-energy games, bold colors, and fun activities inspired by this totally rad decade. Get ready for big moves, bright style, and nonstop fun!

Before apps and streaming, people created fun-filled days with imagination and a rewind button! For the 7th week of Summer Camp, we'll dive into the world of the 90s. Campers will explore games of the decade and create epic stories worthy of a blockbuster VHS.

Week

Rad Times in the '90s

Week

Y2K Party 2000's Edition

Celebrate the turn of the millennium with a party packed with bright colors, new tech, and playful challenges! Campers will learn about the massive global efforts by computer programmers who updated codes and prevented what was called "the Y2K bug" from causing widespread disaster! We will also explore the evolution of the cell phone and the beginning of social media!

Week

Future Foods & Classic Chews

Could you imagine a baseball game without a hot dog? Snack time without string cheese? Or a quick meal without a microwave? There was a time when our favorite foods didn't exist. In the 9th week of camp, we will do a taste-test challenge and do a build-your-own snack race!

Week

"The Future is Ours" Celebrations

Blast off into the future! Campers will dream about the world they want to create, explore fun activities that show their creativity and talents, and celebrate all the amazing adventures of the summer. We will build future towns with craft supplies, do "future me" mini-posters, and hold a camp talent show as we envision our role in the bright future ahead. The sky's the limit!
